

Vine, Tree & Vegetable

Eco-Prime Red - Startup Fertiliser

For Quality Roots and Fruits

- Fast Response
- Long Lasting Delivery
- Nutrient Dense for produce Shelf Life
- Suited to Light and Heavy Soils
- Contains Beneficial Biology

Available in 25Kg, 1ton bulka bags

N%	P%	K%	C%	Ca%	Mg%	S%	Si%	Fe%	Cu ppm	Zn ppm	Mn ppm	B ppm	Co ppm	Mo ppm
6.6	8.0	8.9	7	9	0.6	6	3.5	0.8	25	78	1827	8	8	5

Eco-Prime Red is a unique mineral NPK fertiliser combining a complex blend of nutrients from Potassium Sulphate through to granulated Soft Rock Phosphate. This is enhanced with beneficial biology, including Mycorrhizal fungi and phosphorus solubalisers (*including Bacillus megaterium*).

Root stimulation is achieved through the use of natural ingredients including mineral based NPK, Humates and Phytohormone producing biology.

Fruit quality is enhanced though improved Phosphorus availability throughout the growing season, coupled with balanced Potassium, Calcium, Magnesium and Trace nutrient release.

Vegetable 500+Kg/Ha in light soils,
1500+Kg in heavy soils

Fruit Trees 500Kg/Ha

Wine Grapes 350Kg/Ha

Eco-Prime Red can be applied through most modern spreading equipment, however due to humus content it is recommended to check calibration and if in doubt apply through a belt spreader. Special care should taken with precision seeding equipment
