

Express NK+Te

Liquid Fertiliser

Liquid Fertilisers for Immediate Results
For Turf, Pasture & Cereals

Express NK+Te 23%N P 1.8% 4.5%K

Mg 0.08%	S 1.85%	Fe 400ppm
Mn 438ppm	Cu 250ppm	Zn 261ppm
Mo 39ppm	Co 21ppm	B 102ppm

Liquid fertiliser designed for:

- ✓ **Strong Turf & Pasture Growth**
- ✓ **Fast Foliar Uptake**
- ✓ **Stabalised to reduce volatility**

Stabalised NK + Trace fertiliser

-part of our unique chelated delivery system.

Nutrition is not just about analysis, but nutrient availability. Express NK+Te is designed to penetrate the leaf quickly and effectively, *But* not deposit harmful chlorides or damaging salts, which can cause plant damage and encourage fungal and insect attack.

- ★ **NITROGEN (N) for rapid growth**
- ★ **POTASSIUM (K) for durability**

Most fertilisers are designed for maximum analysis, and do not consider balanced nutrient uptake as an essential parameter. Express NK+Te is designed to deliver efficient nutrient supply in proportion, with a unique stabilising delivery system for optimum uptake and nutrition, with maximum results.

General Application: 5 - 15Lt/Ha

Can be applied in low dose rates through pivot irrigation
I.e. 1Lt/Ha/ day watering

Maximum application rate 50Lt/Ha
Applied in minimum 200Lt water/Ha

Specific rates and handling instructions available on request.
