Express PK+TE

Liquid Fertiliser

Liquid Fertilisers for Immediate Results
For Flower, Fruit & Grain Development

Express PK 13%P 30%K +TE

(29% as P₂O₅, 37.5% as K₂O)

Mg 0.08%	S 1.85%	Fe 400ppm
Mn 438ppm	Cu 250ppm	Zn 261ppm
Mo 39ppm	Co 21ppm	

Liquid fertiliser designed for:

- ✓ **Direct Seed Application**
- ✓ **Drip, Tee & Overhead Irrigation**
- ✓ **Fast Foliar Nutrient Uptake**

Chelated PK +TE fertiliser

-part of our unique biological delivery system.

Nutrition is not just about analysis, but nutrient availability. Express PK is designed to penetrate the leaf quickly and effectively, *But* not deposit harmful chlorides or damaging salts, which can cause plant damage and encourage fungal and insect attack.

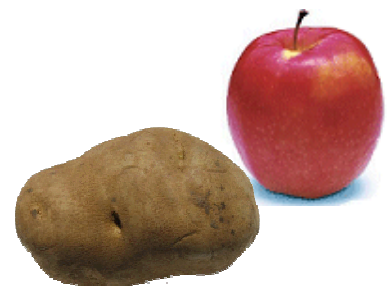

- ★ PHOSPHORUS (P) for sugar production (brix), strong cell structure, density & yield
- ★ POTASSIUM (K) for crop health, consistent size, quality in fruit, vegetables & grains
- ★ Express PK+TE – Essential balance for fruiting and flowering plants, vital for development and fill of fruits and grains

Most fertilisers are designed for maximum analysis, and do not consider balanced nutrient uptake as an essential parameter. Express PK+TE is designed to deliver efficient nutrient supply in proportion, with a unique chelating delivery system incorporating trace elements for optimum uptake and nutrition, with maximum results.

General Application: 5Lt/Ha

5Lt/Ha Vines and Trees Soil application 2.5Lt/Ha Foliar
8-15Lt/Ha Vegetables Soil application 2.5-3Lt/Ha Foliar
15Lt/Ha Turf Grass
5Lt/Ha Pasture

Specific rates and handling instructions available on request.
