

SF 12 and SF 12 + 5% SOP

For Pastures, Crops, Orchards, Vegetables

- P, K and Trace fertiliser
- Long lasting - controlled release
- Strong root development
- Can be used on Sodic soils
- Suits low & high PBI soils
- Prilled for ease of application

Available in 25Kg, 1ton bulk bags & Bulk loads

Analysis	N%	P%	K%	S%	Ca%	Mg%	Fe%	Si%	C%	Zn ppm	Mn ppm	Cu ppm	Mo ppm	B ppm	Co ppm	Se ppm
SF 12	0.17	5.4	0.52	2.3	19.5	0.8	1.6	7.5	13.5	240	820	200	7	30	20	4
SF 12 + K	0.16	4.85	2.54	3.1	18.5	0.76	1.52	6.65	12.8	228	779	190	6.5	29	19	4

SF12 and SF12+K are **BFA** registered prilled Soft-Rock Phosphate and Potash fertiliser, impregnated with beneficial biology.

Phosphorus availability and speed of delivery is increased through the utilization of colloidal soft rock phosphate, palagonite, coal fines, lime and gypsum which is ground to a fine powder, then reconstituted into a prill inoculated with beneficial microbes; including phosphorus solubalisers *Bacillus megaterium*, mobilisers *VAM spp* and plant Phytohormone producers that help stimulate root growth.

Bio-phosphate is typically not bound by high Phosphorus Buffering Index (PBI) soils, resulting in increased phosphorus availability with continued use.

Pastures/Crops/Vegetables/Vineyards non-irrigated 150-300Kg/Ha
irrigated 150-500Kg/Ha
Orchards 500g/tree
