

## Macadamia Biological Fertilisers Contain Complete NPK, Trace, Mineral & Biology

- Compounded / blends of NPK and Bio-Phosphate
- Fast releasing - Slow leaching
- Bio-Activated for Enhanced Plant Uptake
- Includes Australian Soft Rock Phosphates
- Designed for Australian Soil Conditions
- Custom Blends of Boron, Humic acid granules and other trace elements

Superior Fertilisers NPK Mineral Fertilisers combine modern state of the art with traditional fertiliser technology, resulting in efficient, balanced, cost effective macadamia fertilisers.

The result is faster longer lasting complete nutrition, creating strong consistent growth over mixed soil types and robust plants to tolerate varied environmental conditions.

*Plus long term benefits including: Improved soil conditions from biological activity, compaction relief, deeper root growth and associated humus increases...*
