Fertiliser for Life

# EXPRESS<sup>®</sup> CALCIUM + B

**Specialised Liquid fertiliser for boosting growth & fruit quality**

## KEY BENEFITS:

- Improved Fruit Quality & New Growth
- Fast Acting
- Guarding against fruit split

Eco Growth Express<sup>®</sup> Calcium + B is a high quality, fast acting liquid fertiliser for improving fruit quality and protecting and fortifying new shoot growth.

Calcium is an essential mineral for building and maintaining the strength and structural integrity of cell walls and cell membranes, and Boron is a critically important trace element for all crops due to its many roles including assisting with nitrogen assimilation, improving Potassium uptake and translocation of accumulated carbohydrates around plants.

Express<sup>®</sup> Calcium + B contains highly available forms of Calcium and Boron combined with fulvates to facilitate rapid absorption through both leaves and roots.

## TYPICAL ANALYSIS
