Fertiliser for Life

# EXPRESS<sup>®</sup> NPK

## Complete liquid fertiliser for balanced growth & development

### KEY BENEFITS:

- Highly available NPK
- Chelated Trace Elements
- Improving Fruit Size
- Balanced Growth

Express<sup>®</sup> NPK is a premium, liquid fertiliser for foliar and drip irrigation. Express<sup>®</sup> NPK combines highly plant available Nitrogen, Phosphorus & Potassium with balanced chelated trace elements for efficient uptake.

This synergy makes Express<sup>®</sup> NPK exceptionally versatile, whether applied for regular nutrition or for corrective action. Express<sup>®</sup> NPK, can be used to size fruit and vegetables, without loss of quality. For example with balanced use, fruit can be sized without inducing splitting or sacrificing colour. The Nitrogen within Express<sup>®</sup> NPK, lasts longer than many liquids, and can be utilised for sustained foliar or root absorption.

Coupled with Phosphorus, Potassium and Chelated Trace, Express<sup>®</sup> NPK is an excellent all round liquid fertiliser.
