Fertiliser for Life

# EXPRESS<sup>®</sup> PK

## Premium Phosphorous & Potassium liquid fertiliser

### KEY BENEFITS:

- Helps to correct Phosphorus & Potassium deficiencies
- Improves salt tolerance  
Reduces splitting
- Hardens fruit and enhances colour

Express<sup>®</sup> PK is a premium, fast acting liquid fertiliser for foliar and drip irrigation. Express<sup>®</sup> PK combines highly plant available Phosphorus & Potassium with a balance of chelated Trace Elements for fast efficient uptake. This synergy makes Express<sup>®</sup> PK exceptionally versatile, whether applied for regular nutrition or for fast corrective action.

Express<sup>®</sup> PK can be applied to firm flesh, prevent splitting, enhance colour and to mitigate the effects of sodium chloride toxicity. In most situations optimum results will occur from regular applications during plant and fruit development, however corrective applications can be applied at almost any stage of plant growth, with exceptional responses in most crops to leaf or root application through boom, air assisted sprayers or fertigation through drip irrigation. For best results and longevity, combine with Eco-Vital<sup>®</sup>.
