Fertiliser for Life

# EXPRESS® TE

## Trace element liquid fertiliser

### KEY BENEFITS:

- Boosts the uptake of all other nutrients
- Provides balanced micronutrients & Nitrogen
- Highly available complexed trace elements improve crop health
- Suitable for both soil and foliar applications

Eco Growth Express® TE is a well balanced liquid trace element fertiliser that replenishes crops with fundamental nutrients that are vital for healthy growth. Trace elements are combined with Nitrogen, Magnesium and Sulphur to increase uptake.

Trace elements are critical for optimal plant growth, providing the plant with the ability to adapt to deficient and excessive soil conditions. Trace element nutrients are needed in very small amounts for plant health.

Express® TE is rapidly absorbed through both leaves and roots, correcting a range of micronutrient deficiencies.
