Fertiliser for Life

LIQUID FISH

Organic liquid fertiliser for balanced nutrition

KEY BENEFITS:

- Improves soil health and biological diversity
- Stimulation and activation of beneficial microbes
- Encourages strong root development
- Improves nutrient availability and uptake
- Builds plant resilience and improves growth responses

Eco Growth's Liquid Fish is an organically certified, cold-pressed fish hydrolysate produced in Australia. The cold digestion process ensures the quality and nutritional integrity of the fish is preserved and that key enzymes, vitamins and amino acids are retained in their purest form to assist in building healthy, productive and resilient plants and soils.
