Fertiliser for Life

# PASTURE FERTILISERS

## Feed the soil to feed the plant

### BENEFITS INCLUDE:

- High Trace element Australian minerals including Calcium, Silicon and other key nutrients
- Eco Advance® Premium Biology enables powerful root zone development
- Improved carbon cycle
- Increased moisture capacity
- Optimal plant, soil and animal health

Eco Growth pasture fertilisers have been specifically formulated to deliver plant available, mineral based nutrients naturally rich in trace elements.

The Eco Growth pasture fertiliser range is enhanced with the addition of Eco Advance® premium biology. Our proprietary blend of beneficial biology has been developed over the last 25 years and drives the connection between fertiliser, soil and pasture in a powerful symbiotic relationship.

This creates nutrient dense pastures with high total dry matter, increased palatability and cattle contentment with a rising plane of animal health and fertility. Soil health is improved with increased water holding capacity and a greater resistance to soil pathogens and pests.

### ECO GROWTH CUSTOM BLENDS SPECIFIC FOR YOUR CROP AND SOIL

Eco Growth have the unique ability to produce bulk custom blends of biologically activated granular fertilisers specifically for your soil.

By conducting paddock-specific soil tests and providing current agronomic advice, a single custom blend can meet most crop nutrient requirements while saving you time and money. The majority of our base ingredients are sourced locally and custom blends are available in 25kg bags, 1 tonne bulka bags or bulk loads.

Eco Growth fertilisers address the increasing imbalances in both soil and plant by manufacturing a range of balanced fertilisers that have a solid base of NPK, silicate, calcium and trace elements enhanced with the addition of Eco Advance® premium biology.

### Ordering your blend is as easy as 1, 2, 3

**1**

Our trained nutritional specialists discuss your crop needs & analyse your soil/ leaf test results

**2**

Our specialists design and price your custom blend

**3**

We manufacture and dispatch your custom blend fertiliser

## COMMERCIAL STRENGTH LIQUID FERTILISERS Available from 1L through to 1000L IBC or bulk

Our chelated and complexed liquids are designed to penetrate the leaf quickly and effectively, but not deposit harmful chlorides or damaging salts, which can cause plant damage and encourage fungal and insect attack.
