Typical uses and benefits include:

- Encourages strong root development, germination & early establishment
- Promotes flowering & fruiting

Ecogrowth Red® is a unique mineral NPK fertiliser combining a complex blend of nutrients from Potassium Sulphate through to granulated Soft Rock Phosphate. This is enhanced with Eco Growth's Eco Advance® Premium Biology - our proprietary granular fertiliser inoculum, containing select strains of beneficial soil microbes and complementary bio-stimulants.

An excellent establishment fertiliser, root stimulation is enhanced through the use of natural ingredients including mineral based NPK, Humates and Phytohormone producing biology.

Fruit quality is enhanced through improved Phosphorus availability throughout the growing season, coupled with balanced Potassium, Calcium, Magnesium and Trace nutrient release.

fertiliser for life

AVAILABLE IN 20KG, 500KG/1 TONNE BULKA BAGS

For alternative applications or to arrange a soil/plant test please contact your Ecogrowth® nutritional expert.

RED[®]

Biologically activated Australian rock mineral fertiliser for quality roots and fruits

APPLICATION RATES

Crop	Rate	Notes
APPLE & STONEFRUIT TREES	500g/tree (typically 500kg/ha)	Repeat at 250g/tree if required during fruit sizing
CITRUS	500kg/ha	During fruit sizing and post-harvest prior to new flush
GENERAL HORTICULTURE	400-500+kg/ha	Apply as pre-plant, side dressing general vegetables with Ecogrowth Purple [®]
TABLE GRAPES	500kg/ha	Apply banded under vine in spring
WINE GRAPES	250-350kg/ha 100kg/ha	Apply broadcast or banded in spring Apply broadcast over interrow in April-May
TURF GROWING	350kg/ha	Apply after lift. Finish with 250kg/ha Ecogrowth Emerald [®]
