Typical uses and benefits include:

- Improved fruit sizing
- Ca & Si for enhanced firmness & shelf life
- Biologically Activated

Eco-Prime® Strawberry is a biologically activated, rock mineral-based NPK strawberry fertiliser naturally rich in essential trace elements and minerals.

Developed initially for use for in-ground strawberry production, our Eco-Prime® Strawberry fertiliser delivers balanced, plant available nutrition, and is therefore suited to a range of horticultural crops.

Containing a complex blend of minerals and nutrients including Potassium sulphate, lignite and trace elements, Eco-Prime® Strawberry is further enhanced with our EcoAdvance® premium biology that incorporates a range of beneficial microbes including nitrogen fixing bacteria, phosphorus solubalisers and Mycorrhizal fungi.

fertiliser for life
