

SAFETY DATA SHEET

Date of Issue: October 2023

1. IDENTIFICATION

Product Name	Myco Active	
Product Code	None	
Recommended Use	Soil biostimulant for agricultural use.	
Supplier Name	Eco Growth WA	Eco Growth QLD
Address	4/35 Tamara Drive Cockburn Central Western Australia 6164	540 -604 Warrego Highway North Tivoli Queensland 4305
Phone Number	+61 8 9417 9101	+61 7 3282 7166
Email	info@ecogrowth.com.au	admonqld@ecogrowth.com.au
Website	www.ecogrowth.com.au	
Emergency Phone Number	13 11 26 (Poisons Information Centre)	

2. HAZARDS IDENTIFICATION

Classification	Not classified as hazardous according to the criteria of the Globally Harmonised System (GHS) of classification and labelling of chemicals.
Label Elements	
Signal Word	None required
Pictograms	None required
Hazard Statements	None required

3. COMPOSITION AND INFORMATION ON INGREDIENTS

Ingredient	CAS No.	Content
Manganese sulphate	10034-96-5	1 - 3%
Zinc sulphate	7446-19-7	1 - 3%
Iron II sulphate	7782-63-0	<0.5%
Copper sulphate	7758-99-8	<0.5%
Boric acid	10043-35-3	<0.1%
Cobalt sulphate	10026-24-1	<0.01%
Non-hazardous ingredients including water	-	>90%

4. FIRST AID MEASURES

Description of Necessary First Aid Measures

Inhalation	Remove person affected to fresh air.
Skin Contact	Remove contaminated clothing and wash affected area with mild soap and water.
Eye Contact	Hold eyelids apart and flush continuously with running water for at least 5 minutes or until the product is removed.
Ingestion	Do not induce vomiting. Drink water or milk. Get medical attention if ill effects persist.

Symptoms Caused by Exposure

See Section 11 for more detailed information on health effects and symptoms.

Medical Attention and Special Treatment

Treat symptomatically.

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Equipment

Not a combustible material. Use extinguishing media appropriate to the surrounding fire.

Specific Hazards Arising from the Chemical

If liquid boils dry during a fire, residue may decompose or burn and emit toxic fumes including oxides of carbon, nitrogen, phosphorus and sulphur.

Special Protective Equipment and Precautions for Fire Fighters

Evacuate area and contact emergency services. Toxic gases may be present in a fire situation. Remain upwind and notify those downwind of hazard. Wear full protective equipment including Self Contained Breathing Apparatus (SCBA) when combatting fire. Use water fog or spray to cool intact containers and nearby storage areas.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

In the event of a large spill, wear suitable protective clothing, gloves and eye protection.

Environmental Precautions

Keep product away from drains and surface/ground water and/or flow channels.

Methods and Materials for Containment and Cleaning Up.

For minor spills, dilute and flush away with copious amounts of water. For large spills, contain spillage, then cover / absorb spill with absorbent material (sawdust, vermiculite, sand, earth, or similar), collect and place in suitable containers for disposal. Wash contaminated area with water.

7. HANDLING AND STORAGE

Precautions for Safe Handling, including any Incompatibilities

Before use, read all Safety Information, including Directions for Use on the label. Use safe work practices to avoid eye or skin contact. Wash hands after use. DO NOT MIX with other agrichemicals such as herbicides, insecticides or fungicides. Wash personal protective equipment after use. Contact with skin or clothing may cause staining.

Conditions for Safe Storage

Store in a cool, dry, well-ventilated area in the original container. Keep container closed when not in use. Check regularly for leaks or spills. Store above 4°C as freezing may adversely affect product.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Control methods

No exposure standard has been established for this product,

Biological Monitoring

Not required.

Engineering Controls

Use in well-ventilated areas. Where an inhalation risk exists, mechanical extraction ventilation is recommended.

Individual Protection Measures - Personal Protective Equipment (PPE)

PPE is not normally required when handling small quantities. However, when handling large volumes or in an industrial setting the following measure should be followed:

Respiratory Protection	Not required under normal conditions of use.
Skin Protection	Impervious PVC, rubber, or nitrile gloves (AS 2161). Clothing should include long sleeves and long trousers where skin contact could occur.
Eye and Face protection	Safety glasses with side shields or splash-proof chemical goggles (AS 1336 / 1337).

Where PPE is to be used, ensure that workers have been instructed and trained in use, storage and maintenance of equipment. All PPE should meet relevant Australian Standards for the article in use.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Opaque brown liquid.
Odour	Sweet, malt-like odour
pH (neat)	3 - 5
Melting Point / Freezing Point	<0°C
Boiling Point	>100°C
Flammability	Not combustible
Specific Gravity at 20°C	1.2 - 1.3.
Solubility in water	Soluble

10. STABILITY AND REACTIVITY**Reactivity**

Stable under normal conditions of storage and handling.

Chemical Stability

Stable under normal conditions of storage and handling.

Possibility of Hazardous Reactions

No hazardous reactions under normal conditions of storage and handling.

Conditions to Avoid

Avoid prolonged storage below 4°C. Keep away from heat (>40°C) and out of direct sunlight.

Incompatible Materials

Incompatible with strong acids, alkalis and oxidising agents.

Hazardous Decomposition Products

In a fire, product will decompose or burn emitting toxic gases including oxides of carbon, nitrogen, phosphorus and sulphur.

11. TOXICOLOGICAL INFORMATION**Information on Possible Routes of Exposure**

Inhalation:	Not a likely route of exposure.
Skin contact:	Incidental contact not likely to cause irritation.
Ingestion:	May cause gastrointestinal discomfort if ingested in large amounts.
Eye contact:	May cause irritation, discomfort, redness and lacrimation.
Chronic effects:	Prolonged or repeated skin contact may cause dermatitis.

Acute Health Effects

Inhalation	Not classified.
Skin	Not classified.
Eye	Not classified.
Ingestion	Not classified.
Skin Corrosion / Irritation	Not classified.
Serious Eye Damage / Irritation	Not classified.
Respiratory or Skin Sensitisation	Not classified.
Germ Cell Mutagenicity	Not classified.
Carcinogenicity	Not classified.
Reproductive Toxicity	Not classified.
Specific Target Organ Toxicity (STOT)– single exposure	Not classified.

Specific Target Organ Toxicity (STOT) – repeated exposure	Not classified.
Aspiration Hazard	This product does not present an aspiration hazard.
Chronic Health Effects	None known.
Existing Conditions Aggravated by Exposure	None known
Additional Toxicological Information	No data

12. ECOLOGICAL INFORMATION

Ecotoxicity

Not hazardous when applied to soil at the recommended rates. In its concentrated form, this product may have short term negative impact on soil, animals and plants. This product is not considered harmful to aquatic organisms nor to cause long term adverse effects in the environment. However, the concentrated product should not be allowed to enter the aquatic environment where it may cause short term adverse effects due to depletion of oxygen levels.

Persistence and Degradability

Not likely to persist. Expected to degrade rapidly under normal environmental conditions.

Bioaccumulative Potential

None of the ingredients in this product have the potential for bioaccumulation.

Mobility in Soil

Low soil mobility under normal environmental conditions.

Other Adverse Effects

Over-use or spills may impair plant growth in the affected areas. Ensure appropriate measures are taken to prevent this product from entering the environment in concentrated form. Do not allow this product or the used containers to contaminate waterways.

13. DISPOSAL CONSIDERATIONS

Disposal Methods

If possible, product should be collected and reused for its intended purpose. If contaminated with other materials, product must be disposed of to an approved landfill site in accordance with relevant local legislation.

14. TRANSPORT INFORMATION

ROAD AND RAIL TRANSPORT

Not classified as a dangerous good by the criteria of the ADG code, IMDG or IATA

UN Number None allocated.

Proper Shipping Name or Technical Name	None allocated.
Transport Hazard Class	None allocated.
Packing Group	None allocated.
Subsidiary Risk(s)	None allocated.
Environmental Hazards for Transport Purposes	None allocated.
Special Precautions for User	None.
Additional Information	None
Hazchem Code	None allocated.

15. REGULATORY INFORMATION

Safety, Health and Environmental Regulations

All components are listed on the Australian Inventory of Chemical Substances (AICS) or are exempt. Not classified under the Standard for Uniform Scheduling of Medicines and Poisons (SUSMP).

16. OTHER INFORMATION

Additional Information

The effects from exposure to this product depend on several factors including frequency and duration of use, the amount used, control measures adopted, protective equipment used and method of use. It is impractical to prepare a data sheet that encompasses all possible situations; therefore, it is anticipated that users will assess the risks and apply control methods as appropriate.

Report Status

This document is based on the best available information at the time of issue and is believed to represent the current state of knowledge as to the appropriate safety and handling precautions for this product. While all due care has been taken to include accurate and up-to-date information, no warranty as to accuracy or completeness is provided. As far as lawfully possible, Eco Growth accepts no liability for any loss, injury or damage (including consequential loss) which may be suffered or incurred by any person as a consequence of reliance on the information contained in this Safety Data Sheet.
