Typical uses and benefits include:

- **Balanced macro & trace nutrients**
- **General horticultural usage**
- **Gentle response for natives**

Ecogrowth Blue® is a complete and balanced rock mineral-based fertiliser designed for use in all soil types and across a broad range of landscape and horticultural applications including ornamentals, vegetable production, orchards and vineyards.

Enhanced with Ecogrowth's EcoAdvance® premium biology - our proprietary granular fertiliser inoculum, containing select strains of beneficial soil microbes and complementary bio-stimulants, Ecogrowth Blue® stimulates root development, shoot growth and fruiting quality through natural ingredients including mineral-based phosphorus and potassium, coupled with balanced calcium, magnesium and trace elements.

The inclusion of carbon-stabilised nitrogen improves nitrogen utilisation and minimises potential losses to the environment.

For best results, use in conjunction with Ecogrowth's Eco-Wet®.

fertiliser for life

AVAILABLE IN 10KG, 20KG, 500KG/1 TONNE BULK BAGS
