Typical uses and benefits include:

- Highly available NPK
- Chelated trace elements
- Improves fruit size & quality
- Balanced growth

Express® NPK is a premium liquid fertiliser for foliar and drip irrigation. Express® NPK fertiliser combines highly plant available Nitrogen, Phosphorus & Potassium with balanced chelated trace elements for efficient uptake.

This synergy makes Express® NPK exceptionally versatile, whether applied for regular nutrition or for corrective action. Express® NPK can be used to size fruit and vegetables, without loss of quality. For example, with balanced use, fruit can be sized without inducing splitting or sacrificing colour. The Nitrogen within Express® NPK lasts longer than many liquid NPK fertilisers and can be utilised for sustained foliar or root absorption.

Coupled with Phosphorus, Potassium and Chelated Trace, Express® NPK is an excellent all-around liquid fertiliser.

fertiliser for life

AVAILABLE IN 20L, 200L, IBC & BULK

For alternative applications or to arrange a soil/plant test please contact your Ecogrowth® nutritional expert.

APPLICATION RATES

Crop	Rate	Notes
TREE CROPS (Pome, Stone, Nuts, Mangoes, Avocados)	3.5L/ha foliar 5-8L/ha soil 1:200 min. dilution	Apply as required while fruit sizing. Can be applied up to several weeks prior to harvest.
VINES WINE & TABLE	2.5L/ha foliar 5-8L/ha soil 1:200 min. dilution	Apply as required while fruit sizing.
VEGETABLES	2.5-8L/ha foliar 5-15L/ha soil 1:150 min. dilution	Apply when the leaf area is sufficient to accept spray. Repeat as required.
TURF	5-15L/ha 50-150ml/100m² 1:80 min. dilution	Water in for best results.
BROADACRE & PASTURE	2-15L/ha 1:40 min. dilution	Apply as required. In-furrow treatment should be banded away from the seed at lower water rates.

COMPLEMENTARY PRODUCTS

Eco-Vital®

A premium natural kelp and fish liquid fertiliser.

express® Trace

Premium trace element liquid fertiliser.

Eco-Humate

Concentrated liquid humus soil conditioner.
