Typical uses and benefits include:

- Boosts the uptake of all other nutrients
- Provides balanced micro nutrients & Nitrogen
- Highly available complexed trace elements improve crop health
- Suitable for both soil and foliar applications

Ecogrowth Express® Trace is a well-balanced liquid trace elements fertiliser that replenishes crops with fundamental nutrients that are vital for healthy growth. Trace elements are combined with Nitrogen, Magnesium and Sulphur to increase uptake.

Trace elements are critical for optimal plant growth, providing the plant with the ability to adapt to deficient and excessive soil conditions. Trace element nutrients are needed in very small amounts for plant health.

Express® Trace is rapidly absorbed through both leaves and roots, correcting a range of micronutrient deficiencies.

COMPLEMENTARY PRODUCTS

ECO-VITAL®

A premium natural liquid kelp and fish fertiliser.

potassium SILICATE

Premium silica and Potassium liquid fertiliser.

ECO-HUMATE

Concentrated liquid humus soil conditioner.

fertiliser for life

AVAILABLE IN 20L, 200L, IBC & BULK

For alternative applications or to arrange a soil/plant test please contact your Ecogrowth® nutritional expert.
