express [®] PK		13	28	0.2		0.05	0.05			507	526	360	55	124	25		

Typical uses and benefits include:

- Helps to correct Phosphorus & Potassium deficiencies
- Improves salt tolerance
- Reduces splitting
- Hardens fruit
- Enhances colour
- Improves fruit storage

Express[®] PK is a premium, fast-acting liquid high PK fertiliser for foliar and drip irrigation. Express[®] PK combines highly plant available Phosphorus & Potassium with a balance of chelated Trace Elements for fast efficient uptake. This synergy makes Express[®] PK exceptionally versatile, whether applied for regular nutrition or for fast corrective action.

Express[®] PK can be applied to firm flesh, prevent splitting, enhance colour and to mitigate the effects of sodium chloride toxicity. In most situations optimum results will occur from regular applications during plant and fruit development, however, corrective applications can be applied at almost any stage of plant growth, with exceptional responses in most crops to leaf or root application through boom, air-assisted sprayers or fertigation through drip irrigation. For best results and longevity, combine with Eco-Vital[®] kelp and fish fertiliser.

fertiliser for life

AVAILABLE IN 20L, 200L, IBC & BULK

For alternative applications or to arrange a soil/plant test please contact your Ecogrowth[®] nutritional expert.

APPLICATION RATES

Crop	Rate	Notes
TREE CROPS (Pome, Stone, Nuts, Mangoes, Avocados)	3.5-10L/ha foliar 5-8L/ha soil 1:200 min. dilution	Apply a minimum of 3 applications while fruit sizing. Can be applied up to several weeks prior to harvest.
VINES WINE & TABLE	3.5L/ha foliar 5-8L/ha soil 1:200 min. dilution	Apply prior to flowering. Then minimum of 3 applications while fruit sizing.
VEGETABLES	2.5-5L/ha foliar 5-10L/ha soil 1:150 min. dilution	Apply when the leaf area is sufficient to accept spray. Repeat 3-4 applications as required.
TURF	5-8L/ha 50-80mL/100m ² 1:80 min. dilution	Water in for best results.
BROADACRE & PASTURE	2-6L/ha 1:40 min. dilution	Apply prior to leaf tip yellowing becoming evident. Ideally, use prior to 5 leaf stage.

COMPLEMENTARY PRODUCTS

ECO-HUMATE

Concentrated liquid humus soil conditioner.

express[®] TRACE

Premium trace element liquid fertiliser.

ECO-VITAL[®]

A premium natural kelp and fish liquid fertiliser.
