Input for Organic Production ACO CERT. NO. 6004

Typical uses and benefits include:

- **Long lasting controlled release**
- **Suitable for Saline soils**
- **Biologically activated**

Eco-Prime® PhosPot is a premium, biologically enhanced soft-rock Phosphate (SRP), Potassium and complete trace fertiliser suitable for use in both conventional and organic farming systems.

Eco-Prime® PhosPot supplies balanced nutrition without Nitrogen (N). This makes it ideal for plants requiring low N such as red apples, pastures and legume crops. Eco-Prime® PhosPot is a low salt index fertiliser and contains Phosphorus (P) in a natural non-leaching form. This enhances its suitability for use in saline and coastal environments, including areas with sensitivity to P leaching. Eco-Prime® PhosPot is also suited to highly acidic / aluminium-rich soils, where it can provide additional buffering.

For best results, apply Phospot with Eco-Vital®, especially in high-pH soils.

fertiliser for life

AVAILABLE IN 20KG & 500KG/1 TONNE BULKA BAGS
For alternative applications or to arrange a soil/plant test please contact your Ecogrowth® nutritional expert.
