Typical uses and benefits include:

- Enhances nutrient cycling and crop health.
- Buffer soil toxins such as aluminium.
- Improves soil porosity and infiltration.
- Increases soil water holding capacity.

Ecogrowth Lucerne Blend works with the soil's natural processes providing sustained release of nitrogen, phosphorus, potassium, calcium, silicon, and a broad range of trace elements.

Granulated into a spreadable/drillable prill from natural mineral-rich deposits with added balanced NPK this product contains and is enhanced by EcoAdvance® premium biology. Lucerne Blend works with the soil providing nutrients for Lucerne plants whilst encouraging the symbiotic relationships between plants and soil life. Rich in nitrogen, phosphorus and potassium Lucerne Blend also includes calcium, silicon and fortified levels of trace elements all combining to create a biologically friendly environment.

Tailored to meet the nutritional requirements of the Lucerne plant, the Lucerne Blend will provide all the nutrients required for strong, healthy growth while adding beneficial biology to the soil.

fertiliser for life
