Typical uses and benefits include:

- High K for improved fruit.
- High Ca for fruit enlargement and quality.
- Zinc & manganese for flower set.
- Biologically activated.
- Balanced for fruit production in harsh conditions.

Eco-Prime[®] Orange is a NPK fertiliser enhanced with trace elements that is designed to meet the seasonal nutritional demand of high-yield fruiting trees including citrus.

Balanced crop nutrition of all major and micro-nutrients is essential to develop a tree structure that supports fruit load and maximises fruit fill.

Eco-Prime[®] Orange combines a complex blend of nutrients from potassium sulphate through to granulated soft rock phosphate, which is enhanced with EcoAdvance[®] premium biology. Crop quality and yield are enhanced by potassium. Eco-Prime[®] Orange also contains calcium to maximise growth in the early stages and throughout fruit enlargement, producing high-yielding crops with the highest fruit quality.

fertiliser for life

AVAILABLE IN 20KG & 500KG/1 TONNE BULKA BAGS

For alternative applications or to arrange a soil/plant test please contact your Ecogrowth[®] nutritional expert.

ECO-PRIME® ORANGE

Rock mineral fertiliser for
balanced growth & fruiting

APPLICATION RATES

Crop	Rate	Notes
CITRUS TREES	350-500g/tree	Quarterly or as required.
GENERAL USE	Up to 500kg/ha	As required.

COMPLEMENTARY PRODUCTS

ECO-HUMATE

Concentrated liquid humus soil conditioner.

express® PK

Premium Phosphorous & Potassium liquid fertiliser.
