Typical uses and benefits include:

- Enhances nutrient cycling and crop health.
- Buffers soil toxins such as aluminium.
- Improves soil porosity and infiltration.
- Increases soil water holding capacity.
- Biologically activated.

Pasture Start works with the soil's natural processes providing sustained release of nitrogen, phosphorus, potassium, calcium, silicon, and a broad range of trace elements.

Granulated into a spreadable/drillable prill from natural mineral-rich deposits with added balanced NPK this product contains and is enhanced by EcoAdvance® premium biology.

Pasture Start works with the soil providing nutrients for plants whilst encouraging the symbiotic relationships between plants and soil life. Rich in nitrogen, phosphorus and potassium Pasture Start also includes calcium, silicon and fortified levels of trace elements all combining to create a biologically friendly environment.

fertiliser for life
