Typical uses and benefits include:

- Long lasting controlled release.
- Suitable for saline soils.
- Biologically activated.

Eco-Prime® PhosPot is a premium, biologically enhanced soft rock phosphate (SRP), potassium and complete trace fertiliser suitable for use in both conventional and organic farming systems.

Eco-Prime® PhosPot supplies balanced nutrition without nitrogen (N). This makes it ideal for plants requiring low N such as red apples, pastures and legume crops. Eco-Prime® PhosPot is a low salt index fertiliser and contains phosphorus (P) in a natural non-leaching form. This enhances its suitability for use in saline and coastal environments, including areas with sensitivity to P leaching. Eco-Prime® PhosPot is also suited to highly acidic / aluminium-rich soils, where it can provide additional buffering.

For best results, apply Phosspot with Eco-Vital®, especially in high-pH soils.

fertiliser for life

AVAILABLE IN 20KG & 500KG/1 TONNE BULKA BAGS

For alternative applications or to arrange a soil/plant test please contact your Ecogrowth® nutritional expert.

PHOSPOT

Organic rock mineral fertiliser for
Pasture, Orchards & Vegetables

APPLICATION RATES

Product	Rate	Timing
PASTURE	80-100kg/ha	As required.
PASTURE (Irrigated)	150-250kg/ha	As required.
ORCHARDS	500kg/ha	As required.
WINE GRAPES (Under Vine)	250-450kg/ha	As required.
WINE GRAPES (Inter-row Cropping)	100-200kg/ha	As required.
VEGETABLES	500+kg/ha	As required.

COMPLEMENTARY PRODUCTS

potassium SILICATE

Premium silica & potassium liquid
fertiliser.

express TRACE

Premium trace element liquid
fertiliser.

ECO-VITAL®

A premium natural kelp and fish
liquid fertiliser.
