## Typical uses and benefits include:

- Enhance nutrient cycling and crop health.
- Buffer soil toxins such as aluminium.
- Improve soil porosity and infiltration.
- Increase soil water holding capacity.
- Biologically activated.

Superior Grain works with the soil's natural processes providing sustained release of nitrogen, phosphorus, potassium, calcium, silicon, and a broad range of trace elements with the added advantage of EcoAdvance® premium biology.

The result is faster longer lasting complete nutrition, creating strong consistent growth over mixed soil types and robust plants to withstand stress conditions. Plus long-term benefits include: Improved soil conditions from biological activity, compaction relief, deeper root growth and associated humus increases.

Superior Grain works with the soil providing nutrients for plants whilst encouraging the symbiotic relationships between plants and soil life, all combining to create a biologically friendly environment.

fertiliser for life

AVAILABLE IN 20KG & 500KG/1 TONNE BULKA BAGS

For alternative applications or to arrange a soil/plant test please contact your Ecogrowth® nutritional expert.

# SUPERIOR GRAIN

Mineral-rich granular fertiliser for broadacre

## APPLICATION RATES

Product	Rate	Timing
