Typical uses and benefits include:

- Fast response.
- Long lasting delivery.
- Nutrient dense for produce shelf life.
- Biologically activated.

Ultimate is a unique mineral NPK fertiliser combining a complex blend of nutrients from potassium sulphate through to granulated soft rock phosphate. This is enhanced with beneficial biology, including Mycorrhizal fungi and phosphorus solubilisers (including *Bacillus megaterium*).

Root stimulation is achieved through the use of natural ingredients including mineral-based NPK, Humates and phytohormone-producing biology.

Fruit quality is enhanced through improved phosphorus availability throughout the growing season, coupled with balanced potassium, calcium, magnesium and trace nutrient release.

fertiliser for life

AVAILABLE IN 20KG & 500KG/1 TONNE BULKA BAGS

For alternative applications or to arrange a soil/plant test please contact your Ecogrowth® nutritional expert.

ULTIMATE
