

WINE GRAPE FERTILISERS

Feed the soil to feed the plant

BENEFITS INCLUDE:

- **Balance of quality, yield and consistency.**
- **Skin quality.**
- **Improved soil and vine health.**
- **Cost effective.**

Build vine resilience through balanced nutrition. Ecogrowth fertilisers improve fruit skin quality, gives better cool condition ripening, consistent yield with enhanced quality and provide greater disease resistance.

Silicate Minerals - Red®, PhosPot and Purple® offer vine nutrition through the season in the form of highly citrate soluble soft rock phosphates, mined potash, lignite and volcanic trace minerals, plus immediately available NPK all enhanced with EcoAdvance® premium biology.

Foliar and Irrigated Nutrition - Express® PK, Express® Ca+B, etc. provide a fast complementary immediate nutrition through leaf and root designed to quickly rectify deficiencies, whilst focused on vine and fruit quality. Ecogrowth's wine grape range is often used in harsh conditions to balance salt, aluminium and other induced disorders.

Biological Stimulants - Eco-Vital®, Eco-Humate, Eco-Fulvate, etc. Designed for plant strength, microbial support and emergency response. Solutions exist for many vine related issues.

EcoAdvance® Premium Biology - Ecogrowth's EcoAdvance® premium biology is our proprietary granular fertiliser inoculum, containing select strains of beneficial soil microbes and complementary bio-stimulants.

APPLICATION GUIDE

SPRING

Product	Rate
Apply Red® or PhosPot	250-350kg/ha.

IN SEASON

Product	Rate
Eco-Vital®	1-3L/ha foliar every 7-14 days.
express® Calcium + B / potassium Silicate	3.5L/ha foliar or 5L/ha fertigated.
express® PK	2.5-3.5L/ha foliar x4 till veraison.

POST SEASON

Product	Rate
express® NPK	5L/ha post harvest shut down.
Seed multi species midrow crop.	75-150kg/ha broadcast inter-row.
Fertilise with PhosPot.	

Ecogrowth custom blends specific for your soil

Ecogrowth have the unique ability to produce custom blends of biologically activated granular fertilisers suited to your specific soil conditions and crop requirements.

By conducting paddock-specific soil tests and providing current agronomic advice, a single custom blend can meet most nutrient requirements while saving you time and money.

Ordering your custom blend is as easy as 1, 2, 3

1

Our trained nutritional specialists discuss your needs & analyse your soil/leaf test results

2

Our specialists design and price your custom blend

3

We manufacture and dispatch your custom blend fertiliser

fertiliser for life

Biologically activated Australian rock mineral fertilisers

Available in 20kg, 500kg/1 tonne bulk bags.
